- To have fun!

What is IIE Friday, 27 July 2007 What is Institute of Industrial Engineers (IIE)?

Founded in 1948, IIE is the only international, nonprofit, professional society dedicated to advancing technical and managerial excellence of industrial engineers. The Virginia Tech Student Chapter is among 145 student chapters that are dedicated to the industrial engineering students who become the next generation of IE's. Student chapters provided regular networking opportunities within the University and also with local Senior Chapters. This allows students to broaden their professional outlook.

Primary Activities

- Professional Development
- Social activities for ISE students
